6. School Improvement Plan

- **How are we doing with the school improvement plan in the areas of**

academics, social/emotional behavior, Leader in Me? How can we improve?

- Council brought up there could be improvements in communication from teachers regarding their child's academics and behavior (quick email from teachers each month for each student?)
- Parents appreciate the information that comes from Mrs. J in the WHAP, could she also include resources to use at home? Parents would like to be able to reinforce strategies at home and would also like ideas when kids are struggling at home with certain behaviors such as anger, etc.
- We could do better at improving communication about Leader in Me and how to make the home/school connection. Many parents do not understand the Leader in Me program and how to integrate it at home.
- Parents would appreciate it if teachers could choose only one, consistent platform for communication, it's hard to keep track of multiple platforms.
- Parents appreciate the WHAP and monthly newsletters from teachers

7. Wrap up on progress

- Acadiece data is consistently improving year to year
- 2022-2023 59% were proficient in reading
- State goal by 2027 is 70% of students will be proficient

8. Questions/Concerns

- Forms will be coming home for parents to apply for next year's school community council, Matt and Kim are eligible to apply for their second year.
