\*We talked about wanting to add more people to our title 1 team.

\*We discussed what times school will be in session next year. 8:45-3:00 pm.

### **3. Current School plan**

\*Year before last we were not proficient, but we were not seeing growth either, which is unacceptable.

\*We are in CSI status, so we need to test well. This is year 2.

\*Math is our area of focus for this year. We are hoping to see results in our data (testing) by the end of this year, and hopefully more importantly next year. Max Lang and Leslie Evans are our representatives that we can contact and discuss our thoughts on this year with.

\*We will be testing end of March and into April. We do already do end of unit benchmarks, which are helping students to keep up to date on what they need to know and help teachers to know where our students are at.

\*This year we are focusing on rigor. We want our kids to feel prepared to take any tests at the end of the year.

\* Literacy: Trustlands funds and what we can do with them regarding literacy → we are going to continue thinking on this issue.

## **4. Next year's school plan**

-Keep #1 from previous plan.

-Lindsey: Can we continue to hire technicians? – All: Yes.

-Extracurricular→ with COVID this is too hard, there is no available way to make this happen at this moment. Fundraisers have been hard this year, but we want them next year. We are hoping to have a PTO next year.

-Our measure of success is Acadience.

- We want to follow a similar plan next year as we did this year. We will make a new one, following the same ideas.

-Math: k-3, 4-5. RISE is how we have measured and will continue to next year. We will continue with the same plan as this year because the scores are showing that we are improving.

- Are the students who are remote being tied to our teachers here at Park (regarding test scores)? This will affect our scores at the end of the year.

Did not get to:
