## TSSA Budget

Different from Trustlands - we don't need to have the approval, but everyone should be involved.

Things included:

- Stipends for teachers to work an extra hour of contract time each week to collaborate.
- Salaries for teachers attending PD during the summer (each teacher comes in the summer to plan learning activities and
- Software
- Stipends for teachers to work on the Leadership Team
- Technicians to help in classrooms during Tier 1, 2 or 3 in math and literacy.

Question on technology funding:

- Will this amount be enough?
- Yes - when we add it to the amount that is allocated from the district.

Review Nebo SD Student Wellness Program - Aubree

- SEL program described (RULER)

- When Aubree goes in, she does a Tier I support
- We then have Tier II and Tier III supports
- Instead of social and emotional support - we call it the systems of **well-being**.
- We will have common language with these support systems amongst schools.

We try to get this information to our school community by:

- Putting the information into the WHAP
- Web Page

- Kim mentioned to put it on the Facebook page and Instagram? Aubree will check with Sheree Storrer
